

HDNDS Continuing Education Program Presents:

Proactive Practice Management: Treatment Plans, Finances, and Privacy

Speaker: Robyn Thomason, CDA

Thursday, April 18th, 2013 at

Sea Grill

316 E Street, Eureka

Robyn Thomason is a Content Expert/Practice Analyst in the new Practice Support and Development Center of the California Dental Association (CDA). This new department will assist dentist in various areas of practice management. Previously she was with TDIC for 8 years as a Risk Management Analyst. She came to TDIC after a long tenure with the California Dental Association in the auxiliary recruitment and retention program as well as membership services. She attended college in Sacramento and practiced as a Registered Dental Assistant for 11 years.

This course will teach you to proactively manage the most common challenges faced by the front office when working with patients. Such issues include managing treatment consent, financial consent, coordination of dental benefits, and access to records.

This course will also discuss issues and provide solutions to dentists when working with their own front office staff.
